UGANDA CHINESE BUSINESS CONVENTION

SHANDONG PROVINCE

Uganda Chamber of Commerce and Entrepreneurs League Confederation (UCCEC) in partnership with Shandong Province of China invites members of UCCEC, Ugandan government officials and the general business community of Uganda to an eight day business and governance dialogue visit to Shandong province in China. The visit shall happen from the 14th to 24th September 2026, and the places to visit include Jinan city, Linyi, Yantai and Qingdao.

Senior government officials are invited to participate in the Lu-Africa Good Governance Dialogue

The "Lu-Africa Good Governance Dialogue" is a platform for governance experience exchange and practical cooperation between Shandong Province and African nations, co-hosted by the Chinese People's Association for Friendship with Foreign Countries and the People's Government of Shandong Province. Under the theme of "Good Governance Leads Development, Cooperation Builds the Future," and leveraging the 2026 China-Africa Year of People-to-

People Exchanges, the event shares Shandong's practical experience in grassroots governance, rural revitalization, green development, and public services, and promotes mutually beneficial local cooperation between China and Africa.

The event focuses on three key priority areas of common concern to African countries: climate adaptation and sustainable agriculture; resource-based economic transformation and ecological restoration; and grassroots governance and public security. It combines online and offline formats with both theoretical dialogue and field experience to build an open, practical, and equal exchange platform. Pre-event activities will include cloud dialogue salons, grassroots immersion programs for African guests, field visits by Governance Ambassadors, and a China-Africa Youth Maker Challenge, giving African friends a close-up look at China's grassroots governance model and jointly exploring innovative solutions to development challenges.

The main forum in September will feature an opening ceremony, high-level roundtable dialogue, youth leadership forum, and results showcase. Three important outcomes will be officially released: a compendium of Shandong's good governance practices, a list of Lu- Africa cooperation opportunities, and the Jinan Action Initiative — providing a clear pathway for both sides to connect in industry, technology, talent, and projects.

The event invites government officials, experts and scholars, business representatives, youth leaders, media, and representatives of international organizations from African countries to participate. It is committed to promoting mutual learning of governance experience, improving people's livelihoods, deepening local cooperation, and contributing to the building of a China- Africa community with a shared future — advancing global development and governance through the combined efforts of Shandong and Africa.

UCCEC members and the Ugandan business community at large are encouraged and invited to participate in the visit for partnership opportunities in different sectors to penetrate the Chinese Market, technology transfer through B2B sessions and the various engagement planned at the event.

UCCEC members and the entire Ugandan business community is encouraged to participate in the Uganda~China visit to boost business in Uganda and create forward and backward linkages aimed at improving the socio-economic transformation of Uganda. The key sectors considered for the eight days visit are;

1. Agricultural machinery

2. Post harvest grain processing equipment
